

Rovere50

MAIRMO

Cansiglio

Rovere50 brings wood to life with natural colours and grains. It is declined in a collection proposing also new textures, through a workmanship halfway between industry and tailoring.

The Rovere50 collection is a unique and original story in which different atmospheres coexist: evocative and tactile in the reproductions of the wood, innovative and dynamic in the patterns.

Five finishes
inspired by
the nature that
surrounds us
to give warmth
to your spaces

Cadore

Light, luminous, soft, enveloping tones that recall the style and simplicity of the Cadore woods.

Dolomite

The white grain combines with the colour of the rock for a striking light and dark effect, like the mountains of the Dolomites.

Cansiglio

The depth of this piece reminds us of a story where quiet and shade rest at the edge of a mountain stream.

Foresta Nera

Magic and mystery intertwine along its warm veins promising a safe haven after a long day of work.

Tinta unita

Linear and clean, the solid colour moves with a light and sinuous sign, in which the colour reinterprets the wood in a thousand ways.

Cadore

Rovere50, unique and functional, dresses any space with elegance

Dolomite

Technical data

Size and Power

30 x 110 cm

Electric: 350 WATT

Hybrid: 350/300 WATT
